Greg:

I don't remember doing a 207 or even seeing a 207. Since we were an assisting agency we would not have generated a 207 anyway, we would have just contributed to the 207. Did you do one or contribute to a 207 in the first couple of days.

Warren

Subject: ICS 207 for the Las Conchas Fires Response (2011)?

Warren,

I'm working on the revisions to the RERP (Radiological Emergency Response Plan), and one suggestion made was to include an example ICS 207 (org chart) for Scenario 1 and 2 responses. The example Scenario 1 response (OSC leads the response) we'll be using for the document is the 2011 Las Conchas Fires response. Do you think we could include an example ICS 207 from that response? Obviously, we're only looking for the positions, not individual names or numbers. If so, do you know who would have a copy we could use?

When you have a moment, let me know what you think. Thanks for your help!

I have no idea if a 207 was created and if it was, I did not see it. You might check with Warren Zehner in Region 6, he was lead OSC, but this far after the fact, it may not exist, if it ever did.
